

PRESIDENT WRITES MESSAGE TO LABOR

Joins Roosevelt and Taft in Expressing Views in "The Federationist."

Labor problems are discussed by distinguished Americans in the Labor Day issue of the "The Federationist," the official organ of the A. F. of L., in an issue published today. President Wilson, former Presidents Roosevelt and Taft, Secretary of Labor Wilson, Chairman Walsh, of the Industrial Commission, and others contributed "messages" to labor.

"No one can look about him with frank eyes without feeling that there is a steady movement both of purpose and action toward justice and a fuller comprehension and realization of the essential rights and liberties of men," said President Wilson. "The movement may be slow, at times seems distressingly and discouragingly slow, but it is unmistakable; and all that we have to do is to set it forward with ever increasing momentum to think justly, purpose the things that are right, and be afraid of nothing except to be unfair and selfish and hasty when interests great as the country itself are involved."

Roosevelt Lists Reforms.

Colonel Roosevelt's statement declared in favor of unionism, workmen's compensation, social insurance, the eight-hour day and minimum wage legislation. He scored violence in labor disputes, particularly in the Colorado coal strike.

"Every man who condones, glosses over, or apologizes for such acts," said Roosevelt, "is a public enemy. The managers and large stockholders of that corporation (the Colorado fuel and iron company) had not a proper sense of their real obligations to their employees and the community."

Roosevelt denounced the mine owners as "greedy, short-sighted and callous to public needs."

Taft Opposes Closed Shop.

Former President Taft declared himself against the "closed shop" as a curtailment of personal liberty. He said he favored workman's compensation laws, but was against exempting labor and farmers' organizations from the anti-trust law. He congratulated President Wilson on the latter's "hard and successful fight against spread of socialism among wage-earners."

"The only tenet of socialism I fully endorse is its opposition to war," said Taft.

Board Room Improved.

Improvements are being made to the boardroom of the District building, the scene of all public hearings before the Commissioners. Workmen are installing 250 new seats of the type used in the theaters, additional lighting facilities have been provided and a dais installed.

Attend Great Rockville Fair August 25 to 28.—Baltimore and Ohio trains from Union Station 8:20 a. m. and 12:35 noon. Returning after races.—Adv.

ENVOY NOW AT POST

AMBASSADOR WILLARD, United States envoy to Spain, who has reached his post in Madrid, after crossing the Atlantic on the cruiser Tennessee.

McReynolds and Gregory May Be Confirmed Soon

Despite some opposition in the Senate, early confirmation of Attorney General McReynolds as a member of the United States Supreme Court, and of Thomas Watt Gregory as Attorney General, is looked for.

The Senate Judiciary Committee has made a favorable report on each nomination. Such opposition as is existent against McReynolds will be offered in executive session of the Senate.

Senator Norris is expected to oppose McReynolds because of the failure of the Attorney General to follow up on the New Haven case vigorously. The conduct of the Union Pacific case, the Diggs-Caminetti case, and the general attitude of the Department of Justice toward the white slave act are matters on the strength of which there is some opposition felt to McReynolds, but it is doubted whether it will materialize into a serious contest against his confirmation.

Divers Take \$250,000 From Wreck of Liner

NEW YORK, Aug. 25.—In addition to the purse's report, the recovery of which was reported last week, divers have succeeded in raising \$250,000 in silver bullion, from the hull of the sunken steamship Empress of Ireland, in the lower St. Lawrence.

Word to this effect was today received here by the officers of the salvage company doing the work. All the mail bags also have been found.

PLANS FILTER FOR ALEXANDRIA WATER

State Expert Will Also Urge Use of Chlorine to Check Typhoid Epidemic.

ALEXANDRIA, Aug. 25.—So serious has become the alarm in Alexandria over the typhoid fever epidemic, which is raging in this city, sixty cases with four deaths having been reported, that immediate steps will be taken to endeavor to stamp out the disease. Officers of the city government, the State board of health, the physicians of the city and officers of the Alexandria Water Company, have joined in a campaign for the elimination of the fever. In addition to Dr. J. A. Waddell, of the Virginia State board of health, who is making a study of the situation, the State health board sent its sanitary engineer, Richard Messer, of Richmond, to this city, to assist Dr. Waddell in his investigations.

Messer will reach Alexandria tomorrow morning and will be detailed to make an inspection of the water supply and prevent further recommendations that will ensure the purification of the water that now reaches the city from the Nile. In the meanwhile the health officers are not taking any chances and strict orders have been issued forbidding the use of the city water for drinking purposes unless it is boiled.

Dr. Waddell, who has been in the city since Friday, has practically completed his report, which will be sent to the State board of health tonight. A copy will be furnished to Dr. E. A. Gorman, city health officer, and it is expected that the latter will ask the presiding officers of both bodies of the city council to hold a special meeting to consider the report and take steps to have Dr. Waddell's recommendations carried out.

Among the recommendations that Dr. Waddell will make is that a filtration and chlorine sterilization plant be established at the reservoir of the Alexandria Water Company. This, he thinks, is absolutely necessary because of the presence of bacteria in the water. An examination of the water has been made by Dr. James Freeman, State bacteriologist. Two samples were sent, one from a low pressure main in the First ward, and the other from a high pressure main in the Fourth ward. In the former the bacteria were found in quantities of water as small as ten cubic centimeters.

While Dr. Waddell does not go so far as to say that the water supply is to blame for the epidemic, he states that the presence of the bacteria makes one highly suspicious that the water may be one of the principal contributing reasons for the large number of cases of typhoid.

The presence of the bacteria in the water is easily accounted for by Dr. Waddell, who says that it is to be expected when the supply is received from a watershed that is so thickly populated as in the case of the Cameron Run. The presence of a large number of laborers, who are at work on the Barcroft dam, where the water company is building a new reservoir, may also have something to do with the presence of the bacteria in the water. Two cases of typhoid were recently removed from the construction camp at the dam.

Dr. Waddell will strongly recommend the appointment of a permanent sanitary officer, to be under the immediate direction of the city health officer. He finds the sanitary conditions of the city in bad shape.

Sewers are stopped up and should be regularly flushed out or privies are in bad condition and are not properly screened against flies and other insects. Back yards need cleaning, he reports. He refers to one alley in the vicinity of King and Henry street, near where a number of cases of typhoid have developed, as being in a most disgraceful condition.

No new cases of typhoid were reported to the health officer today, but Dr. Waddell expects that there will be a number of new cases within the next few days. As soon as he completes his work here he will make inspection of the suburbs of the city.

Sixty members of the Alexandria fire department, divided into three companies, the Reliance, the Columbia, and the Relief, left Alexandria this morning for Portsmouth, Va., where they will attend the annual convention of the Virginia Firemen's Association, which convenes tomorrow morning. They will return Saturday morning.

The body of Daniel F. Galtney, who died at the Alexandria Hospital yesterday from typhoid fever, was sent to the State board of health tonight, where the internment will take place.

City Councilman Charles B. Marshall has received a cable from his niece, Miss Daisy Marshall and Mrs. Cornelius Haggerty, that they are in Geneva, where Mr. Haggerty is ill with typhoid fever.

MANILA, Aug. 25.—Governor General Harrison has pardoned Martin Ocampo and Theodore Kalaw, formerly manager and editor, respectively, of the Manila Renacimiento, who had been convicted of criminally libeling Dean C. Worcester, at one time one of the American commissioners here.

To Quickly Remove Ugly Hairs From Face

(Beauty Notes.)

Beauty-destroying hairs are soon banished from the skin with the aid of a delicate paste, made by mixing some water with a little plain powder and a dash of lemon juice. This is spread upon the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed with soap and water. This simple treatment banishes every trace of hair and leaves the skin without a blemish. Caution should be used to be sure the paste is not too thick, or it will be difficult to remove.

THE MOHICAN HOTEL is in every respect a strictly first-class New York hotel, located in a little town of twenty thousand inhabitants. This is unique among all the hotels in the world. Apart from resort hotels, no town anywhere the size of New London has a hotel in any sense comparable with THE MOHICAN.

The Mohican Hotel

New London, Conn.

EUROPEAN PLAN, first-class in every respect, size of the Holland House in New York, steel construction, fireproof, every sleeping room with private bath, all baths with outside windows, steam heat, electric light, complete elevator service, telephones in rooms—in a word, a thoroughly up-to-date, modern, metropolitan hotel in a small town, with small prices.

THE MOHICAN HOTEL is in every respect a strictly first-class New York hotel, located in a little town of twenty thousand inhabitants. This is unique among all the hotels in the world. Apart from resort hotels, no town anywhere the size of New London has a hotel in any sense comparable with THE MOHICAN.

New London is exceptionally well located half-way between New York and Boston, with admirable train service between the two cities and other points in Connecticut and Rhode Island. New London is a delightful summer town and a fine winter residential town, where one has quiet and fresh, pure air from Long Island Sound.

The cost of living to permanent or transient guests at THE MOHICAN HOTEL, in point of comforts, luxuries and cuisine, is less than in any first-class hotel in the world. The prices that obtain at THE MOHICAN HOTEL would be impossible in a city the size of New York, or any other large city. Clean, comfortable bedrooms with private baths are as low as \$1.50 A DAY, and to permanent guests a handsome reduction in price from the transient scale.

THE MOHICAN HOTEL is run strictly on the European plan. Its cuisine compares favorably with the best hotels in the world. Fresh sea-food from Long Island Sound is at the very door of the hotel. Located half-way between New York and Bos-

FORMAL OPENING OF FAIR AT ROCKVILLE

ROCKVILLE, Md., August 25.—The sixty-first annual exhibition of the Montgomery County Agricultural Society began here this morning, to continue four days.

Every preparation has been made by the management to entertain the crowds. All of the departments are overflowing with exhibits, a fine racing program has been arranged, and other features provided. If the weather is favorable, it is predicted that this year's fair will prove most successful held at Rockville.

No formal exercises marked the opening of the big show. The gates were thrown open, the band began to play, the fairs got busy, and the event of the year to Montgomery county people was on in earnest.

Tomorrow will be one of the big days. The program includes the announcing of premium winners in the various departments, a cavalcade of stock around the race track, five races, and other features.

The feature of the race program for tomorrow is a stake race for three-year-olds owned in Maryland, Virginia, and the District of Columbia, the purse being \$200. The entries are: J. H. Henry, Washington; Buster Red, H. C. Corbin, Hanover, Pa.; Edna G. Francis, C. Getzenanner, Baltimore; and Red Rock, Charles Veira, Rockville.

The other harness event carded is the 2:18 pace for a purse of \$300, the entries being: Dr. Beale and June Patchen, H. C. Corbin, Hanover, Pa.; Edna G. Francis, C. Getzenanner, Baltimore; and Red Rock, Charles Veira, Rockville.

Each of the running events scheduled is a four furlong and repeat for a purse of \$125.

BOARD TO CONSIDER ANACOSTIA SERVICE

Following the return of Engineer Commissioner Harding, chairman, of the Public Utilities Commission will take up for consideration a number of pending questions, among them the adequacy of service furnished by the Washington Railway and Electric Company on the Anacostia line. A public hearing on this question will be held September 2. Taxicab rates is another matter which will come up for the consideration of the board in the fall. The properties of the taxicab companies have been valued by the commission, which will determine whether the present charges are to be lowered.

The Commissioners will begin the work on the preparation of the annual estimates for the fiscal year 1915 in September, following the return of Commissioner Newman, who leaves the last of the week for a three weeks vacation in Iowa. Under the law the estimates must be in the hands of the Secretary of the Treasury for transmission to Congress not later than October 15. The Commissioners will be called upon soon to give consideration also to the annual reports of the heads of departments for the last fiscal year. The sundry civil bill provides that all such reports must be submitted not later than November 15, in order to be printed at the Government Printing Office.

Funerals

Mrs. Juliette Watrous. News has come from New London, Conn., that Mrs. Juliette Watrous, of this city, who with her sister, Miss Ella Tinker, has been spending the summer there, is dead. Mrs. Watrous was the widow of Benjamin Watrous, and was of advanced age. For a number of years past she had been living with Miss Tinker at the Olympia.

Mrs. Maria A. Houghton. Funeral services for Mrs. Maria A. Houghton, who died at Sibley Hospital on Saturday, were held from the residence of W. H. Houghton, 2400 N. street, this morning. Mrs. Houghton was the widow of David W. Houghton, of Glen Echo, Md. Members of the Legion of Loyal Women, of which Mrs. Houghton was an active member, attended the funeral. Interment was in Arlington Cemetery.

Adolph Beer. The interment of Adolph Beer, a native of Alsace-Lorraine and long a resident of Georgetown, occurred this afternoon in the Cemetery of the Jewish Congregation. Funeral services were held at the residence, 3128 M street, where Mr. Beer has lived for the past fifty years. His wife and five children.

Funerals

Mrs. Elizabeth Watts. The funeral of Elizabeth Watts, who died at her residence, 1242 Twentieth street northwest, on Sunday, was held today from the residence of Mrs. Watts, 1242 Twentieth street northwest, at the Baptist Church. She is survived by two children, Clara Newman and Frederick Watts, Cliff Rock Society, of which Mrs. Watts was a member, was represented at the funeral.

Mrs. Helen W. Melville. Funeral services for Mrs. Helen W. Melville, widow of George W. Melville, who died on Saturday at her residence, 804 Tenth street northwest, were held this morning at the family residence. Interment was in Rock Creek Cemetery.

William Walter Wilson. William Walter Wilson, who died suddenly yesterday, was buried today from the chapel of Thomas S. Ferguson, 1011 Seventh street northwest. The interment will be at Occochee, Iowa. He is survived by a sister, Mrs. Edwin W. H. Haggerty, of this city.
